

VOXEL

3D PRODUCT

TOO GOOD
TO BE REAL.

In today' s competitive business environment, great visuals make a difference in a company' s success. We created Voxel Worlds with the mission to provide our clients with ultra-realistic visuals.

As a PropTech company, we operate primarily in the real estate sector. We think of our clients as our partners, and strive to empower them. We work with real estate professionals interested in transforming their vision into a reality. We can start from something as simple as a sketch, and realise a beautifully rendered property. In the process, we supply our partners with a plethora of deliverables, ranging from realistic 3D renders to web and mobile applications that serve as state-of-the-art sales and marketing tools. Our success stems from enabling our partners. The visual we create reflects their vision.

We are successful thanks to our commitment to high standards of quality. Our partners trust us with complex projects and have faith in our ability to lead them to completion. We have a large variety of projects in our portfolio, and our skillset enables us to work on product design & modelling, virtual or augmented reality experiences, mobile and web applications, as well as animations.

"THE RENDERS EXCEEDED
MY HIGH EXPECTATIONS,
AND IT WAS A VERY FAST
TURNAROUND. I WILL
DEFINITELY HIRE THEM
AGAIN FOR
FUTURE PROJECTS."
